TRUCK & OFF-ROAD EXHAUST SYSTEMS

DES MOINES, IA

TRUCK EXHAUST SYSTEMS

C A T A L O G

Dear friends,

We are pleased to provide you with our new expanded catalog for truck exhaust systems. We've greatly increased our product line to include many new parts and systems in order to better satisfy all your truck and heavy equipment exhaust system needs. United Mufflers, own brand, are showcased throughout the catalog. United mufflers are all heavy duty, welded, aluminized steel and dimensionally correct for O.E. fit.

Sincerely,

*John, Jason, Rich, Steve and Andy
Sales Staff*

CUSTOM DESIGNED TUBE BENDING TOOLING

- Tooling provides smooth bends with a minimum amount of size reduction through the bend.
- All sizes made from aluminized material.
Polishable 304 stainless available in 2", 2-1/2", 3", 4", 5" and 6" sizes.
- Tube OD at ends can be sized up or down at least twice metal thickness.

AccuSeal™ CLAMPS

ALUMINIZED

- New clamp technology provides simple, effective way to replace U-bolt and guillotine clamps.
- Creates over a ton of clamping force without crushing pipes, resulting in strong, serviceable joint.
- Pre-assembled hardware.
- Fast, easy and accurate installation – slip clamp over slotted side of joint, insert mating pipe and torque to 40-60 ft-lbs.

CHROME STACK PIPES

FEATURES

- Original equipment quality.
No wavy reflections, grinding lines or pits.
- Double nickel plating before chrome finish prevents corrosion.
- Multiple polishing of base tube before plating assures a high lustre mirror finish.
- No clamp die-marks, saw cut offs or burrs.
All end forming is finished before plating.
- Special packaging prior to shipment with non-marring materials.
- Also available in 304 polishable stainless steel.

MUFFLERS

SPARK ARRESTORS

- Designed for universal application with a minimum of restriction on the engine. They work well as add-on units to existing exhaust systems. Their light-weight small size reduces stress and vibration to the rest of the exhaust system. Typical applications include logging and construction equipment, agricultural machinery, over-the-road trucks, airport equipment, forestry and military vehicles.
- All arrestors exceed U.S. Forestry requirements and are qualified and tested for vertical and horizontal installations under the U.S. Forestry Service Standard 5100-1a.
- All inlets are slotted tube connections. Outlets are O.D. tubing.
- CFM rating is based on a pressure drop of 1 PSI.

OFF-ROAD EQUIPMENT

EXHAUST GAS PURIFIERS

 **FACT:** Propane engines, although they seem very clean, are the second worst carbon monoxide (CO) emitters.

Average CO emissions from a well-maintained internal combustion engine:

- Diesel Engine 1,000 - 1,500 PPM
- Propane Engine 3,000 - 10,000 PPM
- Gasoline Engine 20,000 - 80,000 PPM

Industrial equipment (forklift trucks, sweepers, and construction machinery), operating in confined, poorly ventilated areas, affect the health of their operators and other employees. Headaches or nausea often attributed to stress on the job, are often symptoms of carbon monoxide poisoning.

Air quality standards in a work place are specified by the Occupational Safety and Health Administration (OSHA) and other governmental bodies. These agencies specify that the threshold limit value (TLV) for CO exposure per eight (8) hour shift cannot exceed **35 parts per million (PPM)**.

 **SOLUTION:** Exhaust Gas Purifier is a genuine solution to this problem.

- Over 90% reduction of toxic gases (immediately after engine start-up)
- Extra catalytic surface for the best possible efficiency
- Corrosion resistant materials used to build the units
- Wide variety of direct replacement designs (reduces installation time to the minimum)
- Low back pressure (no loss of power)
- Maintenance free
- 1-year workmanship and performance warranty
- Pyrometer kit included, propane only
- The most affordable product of this kind on the market: immediate availability and technical support

 **ACTION:** Take advantage of our professional expertise.
