ACCESSORIES

CAT'S EYE TIRE PRESSURE MAINTENANCE SYSTEM

KEEP AN EYE ON YOUR TIRES!

Cat's Eye works hard in two ways. It equalizes the air pressure between the dual tires and it signals underinflation.

**INTERNAL CHECK VALVE
PREVENTS BOTH TIRES
FROM GOING FLAT IN
CASE OF A BLOWOUT!**

COST SAVINGS

- **Increased Tire Life** - Underinflation dramatically impacts the life of the tire.
- **Better Fuel Mileage** - Underinflation increases the footprint, increasing drag.
- **Equalizes Pressure** - Allows the dual to carry the load equally.

SAFETY

- **Detects Potential Tire Problems** - Before they become dangerous.
- **Decreases Emergency Situations** - The heat generated from underinflation leads to blowouts.

LABOR SAVINGS

- **Easy-to-Read Gauge** - Tires can quickly be checked with a glance.
- **User Friendly** - Cat's Eye eliminates the dirty work of checking the inside dual.
- **Central Airing Point** - Air both tires at one time for easy access.
